

Barista Uno:

The virtuoso of
coffee machines.

Die Barista Uno:

The sweet smell of success.

If you are aiming to impress, you will certainly succeed with the Barista Uno by Sielaff – those who are expecting just an ordinary coffee machine are in for a rare treat.

The Barista Uno doesn't just only prepare coffee. Using high-quality grinders and the perfect combination of fresh milk and top quality coffee beans, it gives off the authentic coffee aroma of a true Italian coffee house.

You'll love what you see!

The Barista Uno's aesthetics will impress you from the very first time you see it. Its back-lit display panel is eyecatching – especially in busy places.

Particularly attractive: This elegantly aesthetic machine offers a great advertising opportunity which is emphasised by the combination of Plexiglas and careful lighting. It means that your brand will catch the eye of the customer immediately when they see it.

Take advantage of the first-class features that the Barista Uno has to offer:

- Delicious coffee specialities and hot chocolate – expertly brewed
- The unsurpassable taste of drinks made using fresh milk
- Reliable technology that you'll find so easy to use
- An eye-catching machine with versatile wrap-round advertising panel that is easily changed
- Simple to use

You've got lots of choice: Enjoy it anywhere.

Coffee is just too good to be dispensed into a cup by any old machine. This is why the Barista Uno brews all coffee drinks at the press of a button using freshly ground coffee beans, turning each sip into a rare treat.

Fresh milk considerably improves the taste of fresh ground coffee. All Barista Uno coffee specialities are prepared only with fresh milk – that's because we know how important it is to deliver the best of taste.

With the Barista Uno and its seven coffee selections and hot beverage specialities in two different cup sizes, even a rushed coffee can be enjoyed with great pleasure.

At the touch of a button the Barista Uno will serve you:

- Espresso
- Café Crème
- Caffè Latte
- Cappuccino
- Cappuccino Choco
- Latte Macchiato
- Hot Chocolate
- Hot water (optional)

The technology: Perfection is in the programming.

Not only does the extraordinary design of the Barista Uno work, you'll be impressed by all the sophisticated features we've built in.

The illuminated selection buttons stand out, ensuring that the customer can easily identify the product they want.

The fresh milk is stored in a separate, chilled container to guarantee the high quality from those drinks that are made with milk.

Service and maintenance are also as simple as can be. The machine is built with pull-out units, enabling quick and simple access to all components.

The Barista Uno – state-of-the-art technology for ultimate coffee enjoyment.

What makes the Barista Uno so good?

- Two high-quality grinders
- Cup sensor
- Three or five illuminated cup dispensers
- Modern water filter
- Integrated milk frother
- 20 litre capacity milk fridge
- Double buttons including flashing light
